

WiFi made for the world you live in.

Intellifi® establishes the foundation for broadband-based network coverage in your subscriber's residence, ensuring your customers have ready access to the applications and services they need the most. The Intellifi WiFi home solution is plug & play and highly intuitive, allowing new devices to easily connect to the WiFi network without degrading connectivity.

Shape or size doesn't matter

The Intellifi WiFi gateway and satellites create the perfect in-home network. This intelligent mesh network enables gigabit-plus capacity throughout any size home, providing a fast, frustration-free and reliable WiFi experience that simply works. Customize or expand your WiFi by adding as many Intellifi satellites as you need.

An intelligent WiFi network

Intellifi creates an intelligent mesh solution that monitors channels and links in real-time, so your subscribers are getting great bandwidth and fast, seamless roaming—without buffering.

Goodbye Dead Spots.

Hello Reliable WiFi.

Intellifi satellites form a flexible mesh system to provide seamless WiFi coverage. Use up to 5 Intellifi satellites to fit your subscribers' home size.

Small Home
up to 2000 sqft

Medium Home
up to 4000 sqft

Large Home
up to 6000 sqft

Fast WiFi,
without interruptions

Smarter network,
better connections

Perfect quality on
every device

Subscriber Problem

There are WiFi dead spots in my home.
I have a lot of devices on my network, and some of them don't work well.
Everyone in the house is constantly using WiFi.
I don't want my system to quickly become outdated.
I have trouble streaming TV.
I keep adding WiFi-enabled devices to my home.
I need to reconnect to my WiFi when I move to a new room.
I've tried other mesh systems but my Service Provider could not provide me support.

Solution

Intellifi ensures every inch of your home is covered in fast, reliable WiFi.
Intellifi automatically adapts to accommodate any number of devices.
The network is dynamically adjusted to improve coverage and capacity.
Intellifi works seamlessly with Service Providers to perform automatic updates.
Intellifi prioritizes video, voice and gaming services.
All of these devices will have a strong connection, no matter where in your home you put them.
Intellifi roaming gives you the ability to walk around your home without service interruptions.
Intellifi is designed to work seamlessly with Service Providers for optimal performance and support.
